### **DETAILED ACTION**

This action is in response to Applicant's Request for Reconsideration filed 4/5/2004.

#### ***Allowable Subject Matter***

Claims 1-26 are allowed. The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1, there is not taught or disclosed in the prior art a frequency modulated laser including means for applying a uniform electric field across a laser cavity, the electric field propagating substantially perpendicular to the direction of laser light and having the same intensity along the length of the cavity. Regarding independent claim 24, the means is specified as a traveling wave structure, and this is neither taught nor disclosed in the prior art.

Regarding claims 9-23, reasons for allowance were given in the previous action, mailed 2/13/2004.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Response to Arguments***

Applicant's arguments, filed 4/5/2004, with respect to the Wight reference have been fully considered and are persuasive. The rejections of the claims have been withdrawn.

Art Unit: 2828
